

TECHNOLOGY PRACTICE GROUPS

**Cybersecurity
Practice Group**

**VMWare®
Practice Group**

**Education and Emerging
Technology
Practice Group**

A key differentiator for consortia such as Edge is the role the organization plays in gathering stakeholders to collaborate, interact and contemplate the broader themes, challenges and opportunities impacting organizations that rely heavily upon enterprise information technology resources to achieve their missions. We invite you to explore our three Technology Practice Groups to determine which group best meets your needs.

Administrative Offices
625 Broad Street
Suite 260
Newark, NJ 07102

Network Operations Center
1410 Wall Church Road
Wall Township, NJ 07719

**Government Relations and
Technology Advancement Office**
100 Overlook Center, Second Floor
Princeton, NJ 08540

CYBERSECURITY PRACTICE GROUP

The Cybersecurity Practice Group recognizes that security in all of its facets touches every aspect of the enterprise and extends well beyond the perimeter of the enterprise network. This Practice Group focuses on the full spectrum of cybersecurity concerns and dedicates itself to understanding, supporting and uniting the people, processes, standards and technologies that are needed to mitigate threats to our organizations, their students and personnel. The Group's domain expertise pertains to workflows and cybersecurity processes to:

- ▶ Secure the enterprise network and data
- ▶ Prevent losses and reduce threat vectors
- ▶ Efficiently utilize resources
- ▶ Determine strategies to maximize the ROI on security-centered application and infrastructure investments
- ▶ Promote adoption of national standards to inform local policy and endorses developing metrics and common threat indicators to monitor risk

For more information on joining this Practice Group, please email Jeremy Livingston at info@njedge.net

vmware® PRACTICE GROUP

The VMware Practice Group focuses on the effective use of VMware technology and enterprise wide virtualization and secure computing environments. Practitioners include those who currently have implemented VMware solutions and those wanting to learn how to further leverage their technology investment in this best-in-class technology solution. Members of the VMware group will meet regularly with senior VMware officials to:

- ▶ Review the VMware roadmap and leverage existing VMware infrastructure
- ▶ Examine specific implementations
- ▶ Evaluate use cases for VMware
- ▶ Collaborate, learn, and provide feedback to VMware across the following industries:
 - Education
 - Government
 - Healthcare

For more information on joining this Practice Group, please email Adam Scarzafava at info@njedge.net

EDUCATIONAL AND EMERGING TECHNOLOGY PRACTICE GROUP

The Educational and Emerging Technology Practice Group convenes around the multiple facets of technology and pedagogy including the review and analysis of:

- ▶ Best practices at the intersection of instruction and technology
- ▶ Delivery of online education and effective use of instructional design
- ▶ Emerging educational technologies
- ▶ Learning space design and digital learning environments
- ▶ Assurance strategies for student success

This collaboration is accomplished by bringing together the collective expertise of faculty, technologists and administration to stimulate and sustain online and hybrid learning initiatives and emerging educational technologies through events such as the Faculty Showcase and Best Practices Summit, as well as group meetings with speaker forums and demonstrations offered periodically throughout the year.

For more information on joining this Practice Group, please email Joshua Gaul at info@njedge.net
